## Submission details

Information about grounds for a submission, can be [found on our website](#).

What is your position on the development application? \*

- Support
- Object
- Neutral

State your grounds for submission. The submission should include any relevant supporting evidence and/or documentation. \*

Noting the other estates in the area, and the general lack of Pedestrian access along Peters Road, allowances should be made for the addition of pedestrian infrastructure along Peters Road and Goombungee - Meringandan Road. Pedestrians should not be Forced to use Steep Berms on the side Peters road to access the proposed developments pedestrian pathways.

Given the proposed developments proximity to Meringandan State school, and several other proposed educational facilities, I think it would be prudent for council to reject the current submission until a more thorough pedestrian access plan is provided. We need to give residents the opportunity to move around their communities easily and safely, this development as it stands, does not.

Attach any documentation in support of the grounds raised in your submission
